

How to use the AR app

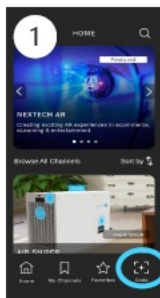

STEP 1

Download the ARitize™ App to enhance your experience with additional content!

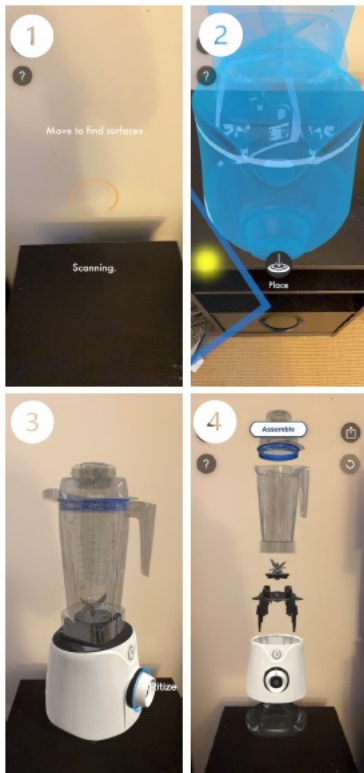

STEP 2

- 1 Open the App, tap/push the "Code" icon in the lower right-hand corner.
- 2 Tap/Push the "Scan A QR Code" button.
- 3 Scan a QR code from the attached document.
- 4 When you have properly scanned, it will begin to load.

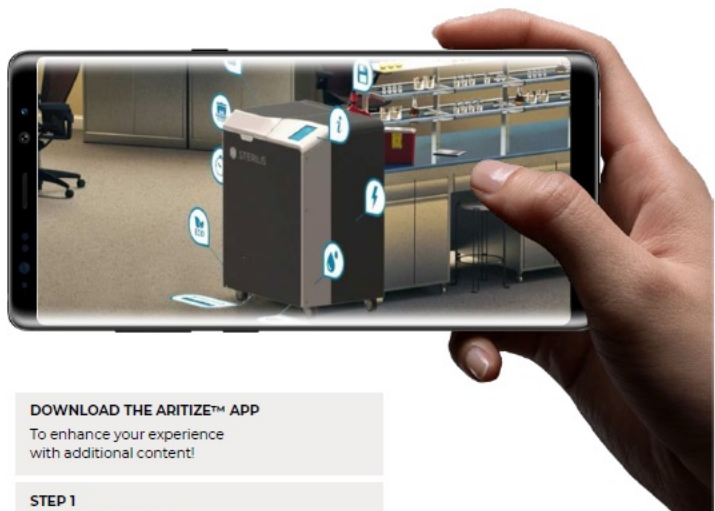

How to use the AR app

STEP 3

- 1 Once loaded, **move your phone** and aim it at a flat area like a floor or a desktop. Your phone will scan for an optimal spot.
- 2 **Once it finds a flat surface** to lock onto, your screen will show a blue square. A preview of the AR will show up as a blue 3D object and you will be prompted to **'place'**.
- 3 Once you have **pressed 'place'**, the Augmented Reality activation will come to life.
- 4 If the object is too big for your space, simply **pinch your screen** to make it smaller, like you would do with a photo.
